

Quiz 04 – Chapter 04 – Input and Output**[60 Marks, 50****MiSnutes]**

Name: _____

Roll No: _____

Question 1: [1x10 marks] [estimated time 10 minutes]
Supply the missing words to complete the statements.

1. Mouse is a pointing device.
2. An input device that looks like an upside-down mouse with the ball on top is a(n) trackball.
3. The part of the CPU that performs logical operations and integer arithmetic is the ALU.
4. OCR stands for Optical character recognition.
5. Scanner is an input device that reads printed text and graphics and transfers them to a computer in digital form.
6. The unit for measuring the quality of scanned images indicated by optical resolution is dpi (dots per inches).
7. QR code that represents data with a matrix of small squares.
8. A voice input system requires software and a(n) microphone in order to input voice data or commands into a computer.
9. Pixel is a smallest colorable area in an electronic image, such as a scanned image, a digital photograph, or an image displayed on a display screen.
10. Ink-Jet Printer An output device that sprays droplets of ink to produce images on paper.

Question 2: [1x5 marks] [estimated time 5 minutes]
Match each input device to its input application, and write the corresponding number in the blank to the left of the input application.

1. Keyboard
2. Stylus
3. RFID tag

4. Biometric reader
5. Touch screen

- a. Pen-based computing: 4
- b. Media tablet: 3
- c. Text-based data entry: 1
- d. Secure facility access: 2
- e. Tracking goods: 5

Question 3: [1x5 marks] [estimated time 5 minutes]
Circle T if the statement is true and F otherwise.

1. **T F** Duplex scanners can scan top sides of a document at one time.
2. **T F** Scanner is an output device.
3. **T F** Color display each pixel is combination of two colors.
4. **T F** Laser printers can only print in black and white.
5. **T F** Consumer kiosks located in retail stores commonly use touch screens for input.

Question 4: [6x5 marks] [estimated time 25 minutes]
Give Short answers to the followings

1. **Write the three devices where pen/styluses are used?**

Digital writing systems
Graphics tablets
Signature capture devices

2. **What is mechanism of handwriting recognition?**

The ability of a device to identify handwritten characters.
Handwriting recognition is ability of a computer to receive and interpret intelligible handwritten input from

sources such as paper documents, photographs, touch-screens and other devices and convert to typed text.

3. What is function of OCR?

Optical character recognition (OCR) software is used in conjunction with the scanner to input the scanned text as individual text characters.

- d. ☐ Data projector
- e. ☐ Speaker
- f. ☐ Microphone
- g. ☐ Photo printer
- h. ☐ OLED monitor
- i. ☐ Flat-panel display
- j. ☐ Gaming controller.

4. What is RFID and RFID tag?

Radio frequency identification (RFID). A technology used to store and transmit data located in RFID tags. RFID tag: A device containing a tiny chip and a radio antenna that is attached to an object so it can be identified using RFID technology.

5. What is difference between Color and Monochrome displays?

Usually, monochrome monitors are in two color one for display image & one for background but the monochrome generally indicate black & white image. While color TV has three guns red, green & Blue. Varying these tubes give you a full spectrum of color. So, television can transmit image in color called color television and a television that transmit image into black & white are called monochrome.

6. Would an OLED display or an LCD display use more battery power? Explain why.?

LCD display use more battery power, because LCD displays require backlighting and OLEDs do not. As LCD use backlighting so it needs extra power for backlight.

Question 5: [1x10 marks] [estimated time 5 minutes]
For the following list of computer input and output devices, write the appropriate abbreviation (I or O) in the space provided to indicate whether each device is used for input (I) or output (O).

- a. ☐ Biometric reader
- b. ☐ Digital camera
- c. ☐ Graphics tablet
